**EXPERIENCE HARMONY
FOR NATURAL WELL-BEING**
—

We are yacht builders, creators of dreams.

INTRODUCTION

I am honored to introduce you to the M-Line product range, the latest addition to the well-established family of PRESTIGE motor yachts. Created in the same PRESTIGE spirit of enabling people to savor precious moments at sea, the M-Line invites those looking for a quieter lifestyle to reconnect with nature and with themselves. Rich in space and light, using refined materials and engineered to the highest standards, these multi-hull-based yachts offer open, inviting spaces with the best views of the expanse and with unmatched comfort and connectivity with the water in pursuit of internal harmony.

Erwin BAMPS, PRESTIGE Vice President

“ We are entering a new era where we will be a reference in the market. ”

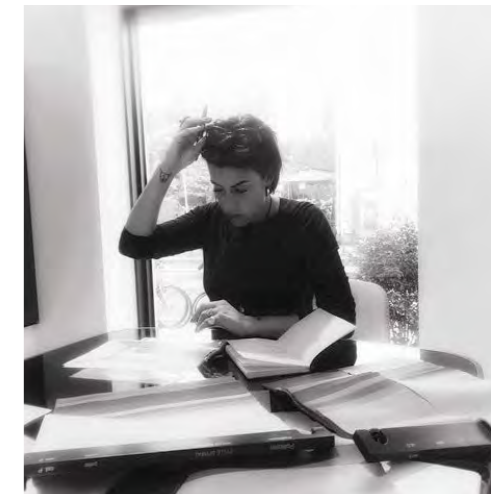

Camillo GARRONI

PRESTIGE has always prioritized volume, comfort, bright interiors and innovative layouts in the design and creation of motor yachts for its customers.

The design of this new range of multihull motoryachts, by Garroni Design, enters a new world in stability and in the distribution of space on board, while remaining true to the heritage of PRESTIGE.

“ For the M-Line, my inspiration for concept and color comes from Miami, an iconic modern city with a skyline that sweeps freely on the horizon, between sky and sea. ”

Valentina MILITERNO DE ROMEDIS

Marc LOMBARD

“ The M8 was designed for a clientele that is looking for volume, refined luxury, and exceptional performance. I worked on the hull of the M8 with this in mind, and the result is very different from what we find on the market today. ”

THE MULTIHULL BY PRESTIGE: SMOOTH, EFFICIENT DESIGN

New dimensions in comfort

PRESTIGE has created a revolutionary new multihull platform for unrivalled space onboard.

By extending the motor yacht's architecture to two hulls, the M8 offers the space and luxury equivalent to that of an 85-foot monohull, with much greater comfort and connection with the sea.

Multihull architecture by PRESTIGE results in expansive open and bright spaces, for the luxury of space.

Stability for serenity

Two hulls provide natural stability, contributing to your comfort and well-being on board.

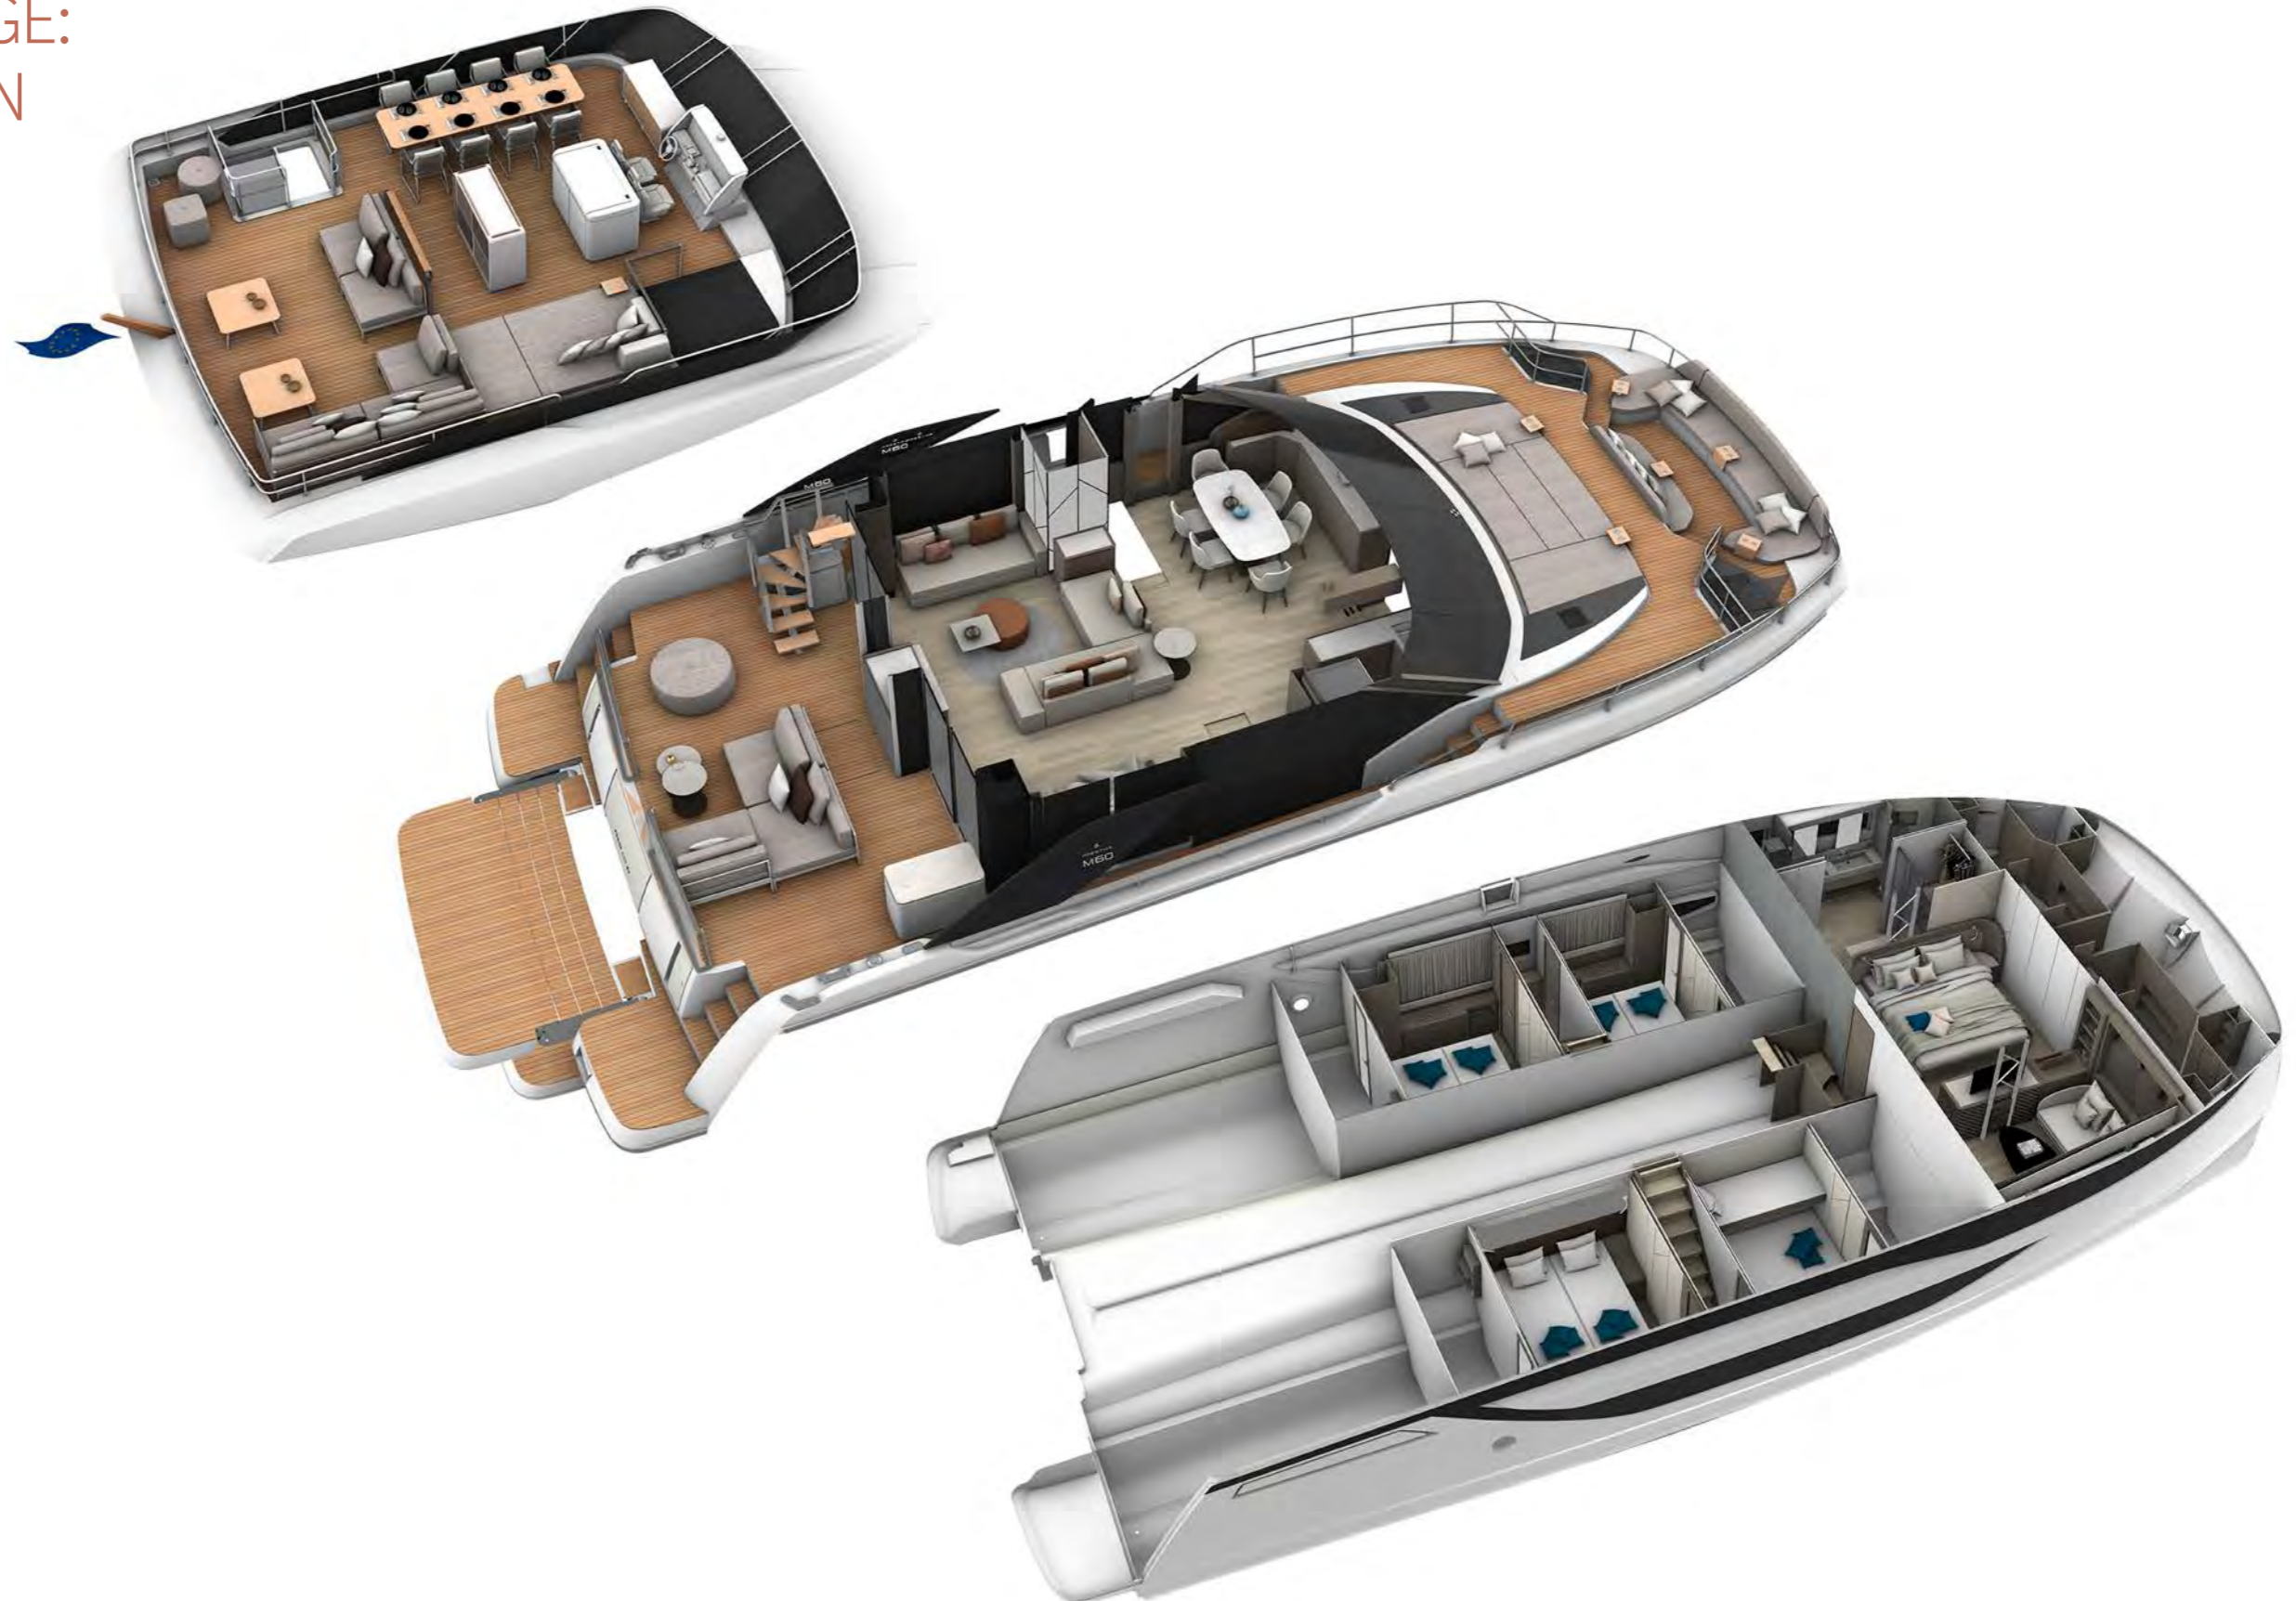

Enjoy smooth, serene cruising aboard your M-Line yacht, where the sea feels like home.

The benefits of a gentle pace

PRESTIGE M-Line guarantees optimal fuel efficiency, thanks to the catamaran hull design. It consumes fuel than a monohull with the same volume of living space.

The architecture of the M-Line offers a less expensive and more environmentally friendly experience.

Experience cruising in harmony with the sea.

NATURAL LUXURY

Experienced designers work for environmental sustainability while developing a multitude of options for customization.

HOME DESIGN

COMMITMENT TO ENVIRONMENTALLY RESPONSIBLE CRUISING

At every step in the process of design, development, and construction, we are committed to reducing the environmental footprint of our yachts, so that our customers can enjoy cruising in closer harmony with nature.

By 2025, PRESTIGE is targeting a significant increase in the use of local, bio-sourced materials, as well as lower energy consumption.

M 8

IN ULTIMATE HARMONY WITH THE SEA

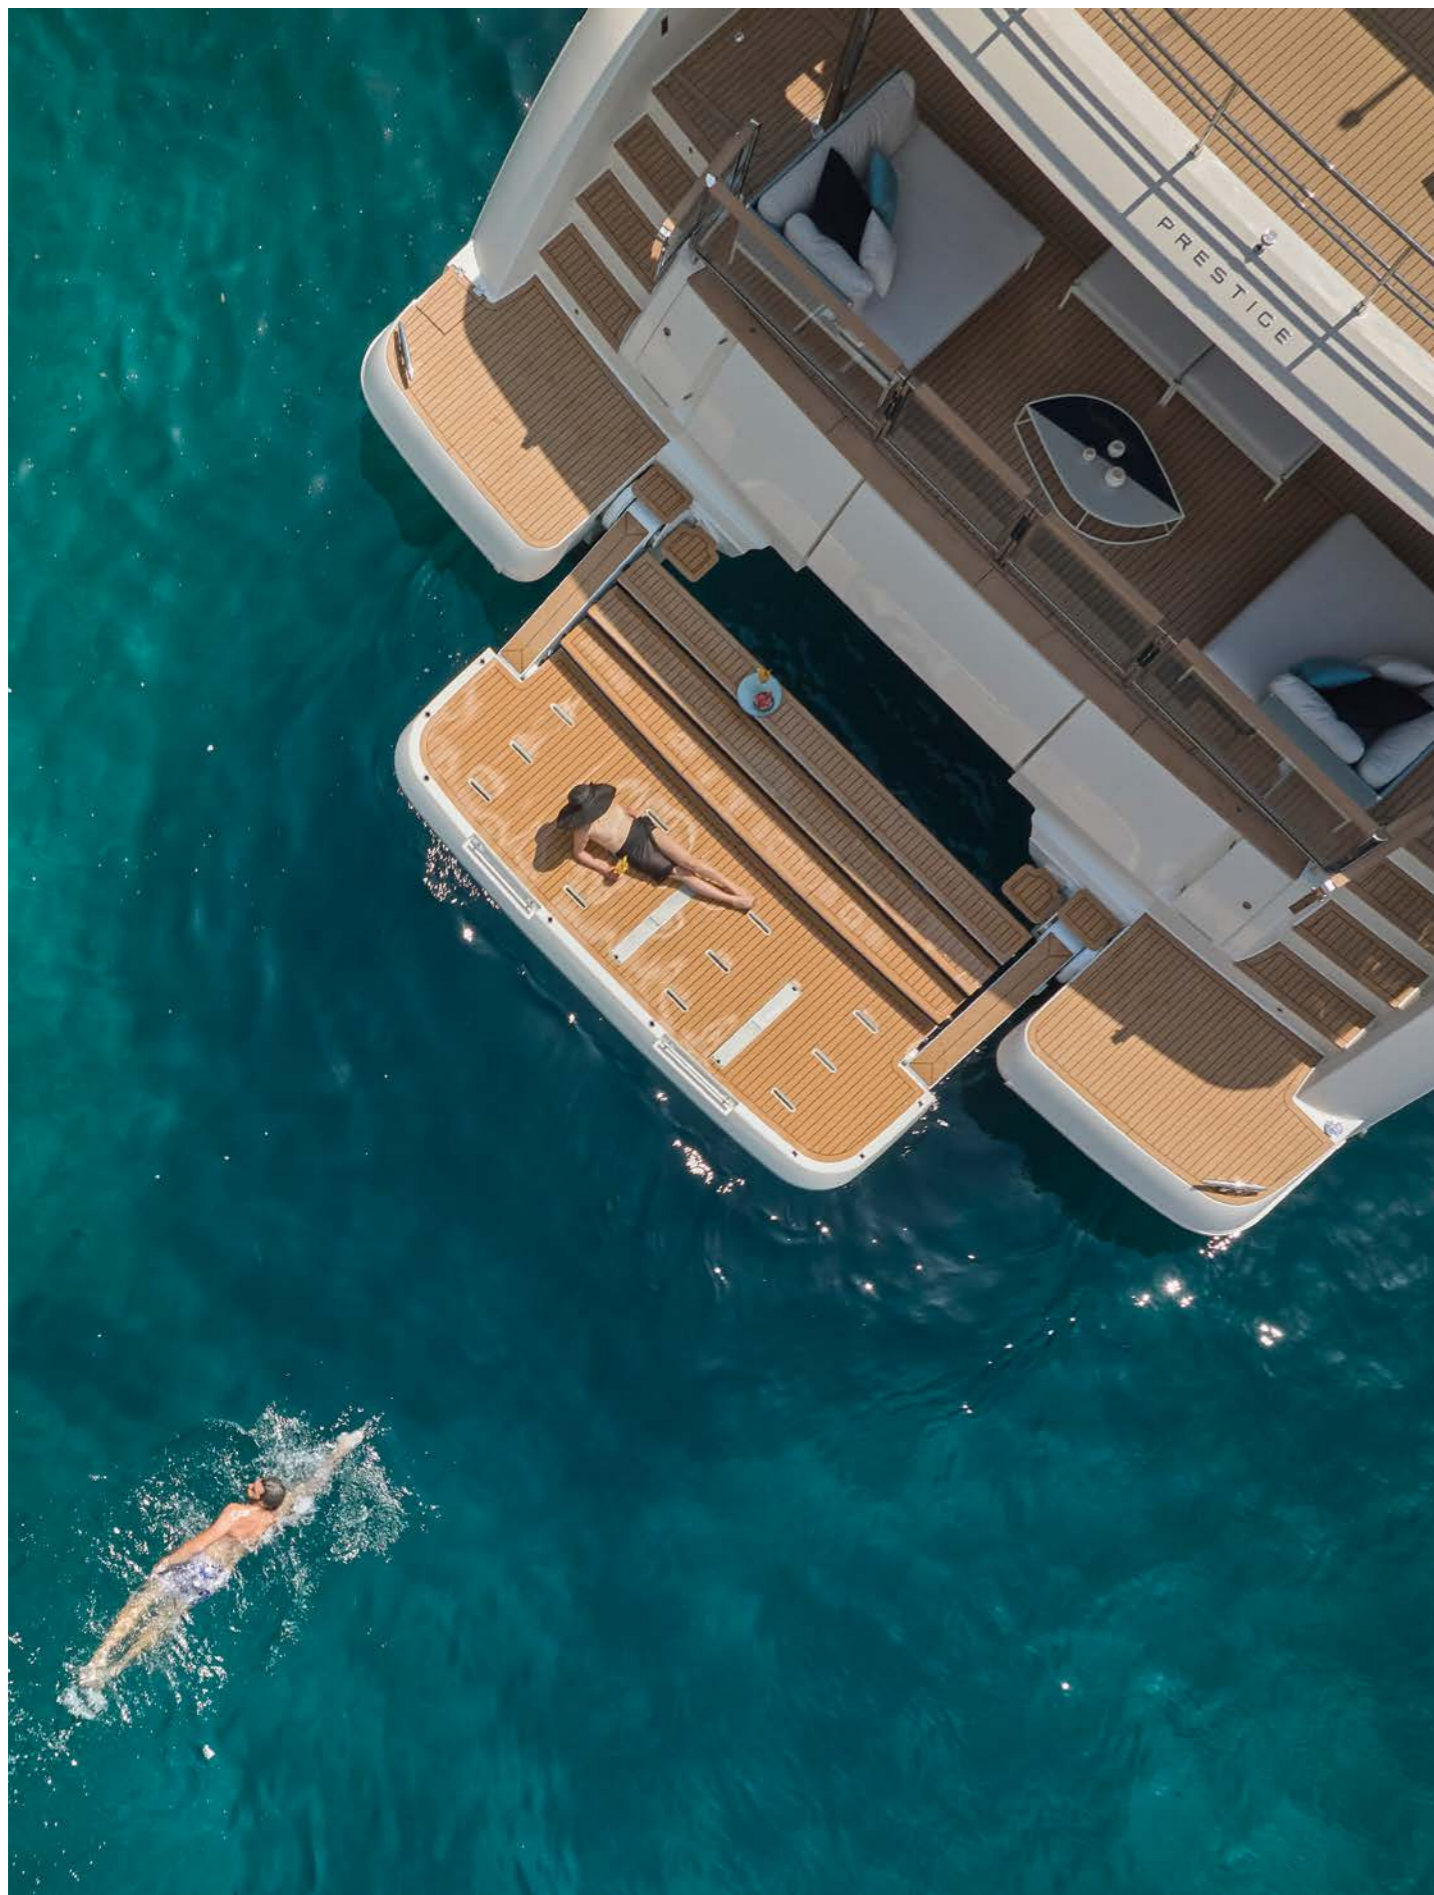

Discover new horizons and reconnect nature, with yourself, and with others in a spacious, refined, luxurious environment: this is the Art de Vivre offered by the new M8.
